\* Depending on substitution of left censored data

\*\* For Meal with peanuts concentrations of all peanut samples were used as a single group in distribution fitting

\*\*\* Maize flour concentration data

\*\*\*\* Both polenta and maize flour are used for preparation of traditional maize bread and polenta meal, therefore concentration data for polenta and maize flour were used as single group in distribution fitting

**Table S2** Mean EDI of AFB1 (ng kg<sup>-1</sup> bw day<sup>-1</sup>), resulting MOE values and the distribution of the exposure for each food category across population of children obtained with FFQ food consumption survey method (LB)

\*Summed from all sources

## Supplementary data Appendix I

### Food categories used in consumption surveys

Product/composite food	
Baked peanuts	Integral pretzels with peanut
Roasted peanuts	Meals with high rice content*
Coated peanuts	Meals with low rice content*
Peanut in husk	Millet
Peanut butter	Dried figs**
Meal with peanuts	Traditional cakes with dried figs**
Cornflakes	Cashew
Polenta meal	Almond
Maize bread	Pistachio
Traditional maize bread	Walnut***
Roasted maize	Traditional cakes with walnuts***
Tortilla chips	Cakes with walnuts***
Maize flips	Dry ground red paprika (in cooked meal)
Maize flips with peanuts	Dry ground red paprika
Muesli containing cornflakes	

\*. \*, \*\*\* - Products summed in single data points for daily consumption

## Supplementary data Appendix II

### List of questions used in 24h-recall interview

- Do you consume breakfast regularly? What do you usually consume for breakfast?
- Have you consumed breakfast in previous 24h? Have you consumed food listed in the food list for the breakfast and in what amount (breakfast cereals, polenta meal, traditional maize bread, maize bread, peanut butter...)?
- Do you consume lunch regularly?
- Have you consumed lunch in previous 24h? Have you consumed food listed in food list for lunch and in what amount (meals with dried ground red paprika, meals with higher rice content, meals with lower rice content, maize bread, traditional maize bread...)?
- Do you consume diner regularly?
- Have you consumed diner in previous 24h? Have you consumed lunch leftovers for diner? Have you consumed food listed in the food list for diner and in what amount (meals with dried ground red paprika, meals with higher rice content, meals with lower rice content, maize bread, traditional maize bread...)?
- Do you usually consume food between meals? If yes, do you consume products listed in the food list and in what amount? (snack food, peanuts, nuts, dried figs, or any other type of food listed in the food list)
- In what occasions do you usually consume snack food, peanuts, and nuts? (movie night, bars, cinema, parties)
- Have you consumed any type of snack food, peanuts or nuts listed in the food list in previous 24h and in what amount?
- Have you in previous 24h participated in following events: weddings, Saint day, birthday. While participating, have you consumed following: traditional food, cakes with walnut and dried figs, snack food.

### Additional question for children

- Do they carry additional meal for school? What was additional meal in previous 24h?

### Additional question for fasting periods

- Do you practice fasting? Have you fasted in previous 24h? Have you consumed food listed in the food list? (no fat traditional maize bread, nuts, peanuts, rice meals, dried figs)
